PROFILE

I'm a co-founder and trainer at Introspecials with a focus on modern organizations, leadership, agility, lean, learning, culture and communication.

My previous experience is that of a business leader with P&L responsibilities for Endava's 300 people strong lasi business unit, of which I was the first employee.

I have also taken a keen interest in the local communities, having been a speaker at various local, national and international conferences, on various leadership topics.

See more about my company at introspecials.com. You can find a summary of my public speaking on my [slideshare page](#). I am a cofounder of the local communities thehumansidegroup.com and "the art of writing for casual writers".

My original background is in software development and architecture.
